HHS teacher named an Albert Einstein Distinguished Educator Fellow

Monique Roth Editor
moniquer@heraldguide.com

Tyler Dufrene, a Hahnville High School educator, has been named an Albert Einstein Distinguished Educator Fellow. With that honor, he will relocate to Washington, D.C. for one year to work in the national arena promoting STEM education and advocating for change.

“I’ll be working with the House of Representatives’ Committee on Education and Labor,” Dufrene said. “My job will include drafting legislation, conducting meetings, writing speeches and talking points, conducting research, negotiating with Representatives and possibly Senators of both parties and anything else asked of me.”

Dufrene is one of 15 STEM teachers from across the United States who were selected for the AEF Program, which provides a unique opportunity for educators to apply their extensive classroom knowledge and experiences to their host offices to inform federal STEM education efforts. He is the only Louisiana educator chosen this year.

He said he is both honored and humbled to represent Louisiana in the national arena.

“I’m ecstatic to have a seat at the table with lawmakers to help shape legislation and offer solutions that will improve the education system in America,” he said. “I will do my best to bring awareness to the issues we face on a daily basis in education, both inside and outside the classroom ... I am excited to network with distinguished educators from across the country and to learn new, effective strategies from them.”

Dufrene has been an educator since 2014.

“I began my teaching career at Central Lafourche High School as an Algebra I and Algebra II teacher,” he

said. “I then taught various mathematics courses at the Career Magnet Center for one year before moving to Hahnville High School in 2016 as the AP Physics and Chemistry teacher.”

The 2022-2023 school year would his seventh year at HHS.

“Over the past six years, I’ve taught AP Physics and

Chemistry I, as well as robotics for one year,” Dufrene said. “I am beyond grateful to have the most ambitious and passionate students a teacher could ask for. I do my best to promote a learning environment where students feel safe to take educational risks and explore the

R.K. Smith teacher finds new home, moves from office to classroom

Ryan Arena Editor
ryana@heraldguide.com

The transition from school secretary to teaching in the classroom has been a rather smooth one for Kristina Harris, despite her path coming through objectively bumpy terrain.

Harris will be entering her third year as a teacher at R.K. Smith Middle School, teaching STEAM – science, technology, engineering, arts and mathematics. Her first two years coincided with COVID-19 and Hurricane Ida.

“I haven’t really seen a normal school year yet,” Harris said. “But when I jumped in, it felt natural.”

Harris was a secretary for eight years at R.K. Smith, but throughout that time she longed to be in the classroom. Teaching was something she had an eye on from an early age, but she was distracted from that path for a time.

“I wanted to work with a larger number of students and not only see the ones you see day to day in the office.”

— Kristina Harris

“I always wanted to be a teacher, since I was little,” Harris said. “We had a family member who was a teacher and I remember she used to work really late into the night, and I kind of thought ‘OK, maybe that’s not what I want to do.’ But once I started working at the

school, I realized more and more teaching was something I was passionate about. I wanted to work with a larger number of students and not only see the ones you see day to day in the office.

“It took some time, but ultimately I felt like, ‘Look,

you can do it. Follow what you’ve wanted since you were small.”

Lakewood teacher seeks to make learning fun

Ryan Arena Editor
ryana@heraldguide.com

Even before she was a student herself, Megan Spears knew her way around a classroom.

Spears, a third grade ELA and social studies teacher at Lakewood Elementary, was inspired to pursue her career by her mother, a longtime teacher.

“I grew up watching her reach her goals, going to the classroom with her after school or early in the morning before

Megan Spears with her students.

she’d drop us off. And just watching her, she inspired me to go into education.”

Spears has been teaching in St. Charles Parish and with Lakewood for the past five years, and her mother’s influence carries past just her choice in careers.

“One of the most important things I learned from her is that every child isn’t the same,” Spears said. “A different level of understanding is required for each child, and you need to meet them where they are. You learn you need to get on their level and understand where they’re coming from, and how you can help them not just in education, but as humans.”

The 2021-22 school year was her first as a third-grade teacher – previously, she taught fifth grade. She called it an adjustment, but a positive one.

“You get to know each other and build that bond with your little family.”

— Megan Spears

“Fifth grade, they’re so independent ... they’re determined to be big kids,” Spears said. “You kind of have to let them do that. Third graders still have that imagination ... they believe in everything; they’re excited to celebrate every holiday. Both (5th and 3rd) are wonderful to work with, but it is different. The younger kids are still so childlike in their imagination, so every time you read a new book, they’re ready to go on another adventure and you see how excited they get.”

No matter what grade level, she says the classroom

Chef turned teacher hopes students remember her as loving, compassionate

Monique Roth Editor
moniquer@heraldguide.com

Ariel St. Romain discovered her love for teaching in a surprising way.

“I graduated from Nicholls State University through the Chef John Folse Culinary Institute with a Bachelor’s Degree in Science and a minor in Business,” she said. “My time cooking was spent in fine-dining kitchens, with my last job being at NOLA Restaurant in the French Quarter. I mostly worked the lunch shift as the Wood Oven Chef, as this shift was easier to take care of my young daughter at home. It wasn’t until volunteering in

my daughter Allie’s kindergarten classroom on my off days that I found my love of teaching.”

“It wasn’t until volunteering in my daughter Allie’s kindergarten classroom on my off days that I found my love of teaching.”

— Ariel St. Romain

St. Romain said that after several weeks of assisting with small group instruction, she quickly decided to go back to school for education. She received her Master’s Degree in the Art of Teaching two years later through the alternative certification program at The University of New Orleans. This will be her ninth year at Mimosa Park Elementary - the school she attended as child growing up in Luling.

“I have been an educator for 8 and a half years,” she said. “Eight of my years have been spent teaching first grade. Half a year was spent as an ERT at New Sarpy Elementary in second grade.”

Ariel St. Romain was selected as Mimosa Park’s 2021-2022 Teacher of the Year.

She said that her favorite thing about teaching first grade is watching how much the students grow from August to May.

“When they enter my classroom in August, they know their letters, letter sounds and some sight words,”

Luling Elementary band director knew music was his calling at just 8 years old

Ryan Arena Editor
ryana@heraldguide.com

Long before becoming band director and music teacher at Luling Elementary School, Alvin “A.J.” Pittman had an epiphany when he was just 8 years old – he wanted to play the trumpet.

Pittman heard a trumpet player play O Holy Night at a church service around Christmas-time, and that made an impression.

“My dad wanted me to be an athlete, and I said, ‘No, I want to play the trumpet.’”

— A.J. Pittman

“My dad wanted me to be an athlete, and I said, ‘No, I want to play the trumpet,’” Pittman recalled. “My older sister played clarinet so I was asked to try that for a year or so, and if I still wanted to play trumpet after that, I could give it a shot.”

He tried the clarinet, but after a year, the promise was kept – he still wanted to play the trumpet, and he got the trumpet. And, as it turned out, he was very good, very fast.

“Something really clicked,” Pittman said.

His older cousin played the instrument as well and showed Pittman the ropes. After just two months of playing

the trumpet, it became clear Pittman had an gift, so much so that he actually played professionally with a New Orleans Dixieland jazz group at the age of just 9.

“I haven’t stopped since,” Pittman said. “I knew at 9, I wanted to play music for the rest of my life.”

As he reached college, his high school band director imparted some fateful advice: get a degree in education.

“I kept saying, no, I don’t want to teach, I’m not gonna teach, because I wanted to be, you know, the world’s greatest trumpet player,” Pittman said. “But he said, ‘Do yourself a favor,’ and I took his advice. I went on the road, I traveled all over, and eventually I reached a point in my life where I felt like, ‘OK, it’s time to go back home and share with students

curiosities of their minds. In return, they inspire me to be a lifelong learner and to be the best teacher I can possibly be.”

Dufrene said he often jokes with his students that he is not a morning person, but because of them he wakes up each morning enthusiastic to come to work.

“Which doesn’t seem like work at all,” Dufrene said. “I also love my phenomenal coworkers who offer me unwavering support and push me to pursue my dreams.”

“Regardless, I’m eager to return and share my once-in-a-lifetime experiences with colleagues and students. I’m placing all my faith and trust in God above.”

— Tyler Dufrene

Dufrene first learned of the fellowship program through a conference he attended a few years ago. In November of last year he saw an advertisement for teachers to apply and decided to go for it, all the while not expecting to be chosen.

“It’s a very competitive and rigorous process,” he said. “It involved several letters of recommendations, along with writing numerous essays. In March, I learned that I was a semi-finalist and was invited to participate in virtual interviews. I interviewed for several positions with the Department of Energy and the Department of Defense. In May, I learned that I was selected as a finalist for a Congressional Fellowship, which is sponsored by the Department of Energy.”

In June, Dufrene flew to D.C., where he went through additional interviews with various Congressional offices and committees.

“A few weeks later, I received confirmation that I was officially selected as a fellow with the House Committee on Education and Labor,” he said, adding that his fellowship officially begins

August 15 and lasts until July 2023.

He said he intends to return to St. Charles Parish after the fellowship is over.

“At the end of my fellowship I do anticipate returning to my teaching position at Hahnville High School, but I would really love to return to the district in an administrative capacity,” Dufrene said. “Regardless, I’m eager to return and share my once-in-a-lifetime experiences with colleagues and students. I’m placing all my faith and trust in God above.”

Dufrene received his bachelor’s degree in mathematics with a concentration in education from Nicholls State University in 2015. He then earned his master’s degree in educational leadership from the American College of Education in 2018.

He serves as a school board member in the Lafourche Parish School District.

Since becoming a teacher, Dufrene has won several notable awards, including being a 2021 state finalist (with national results pending) for the Presidential Awards for Excellence in Mathematics and Science Teaching, the 2021 Outstanding Science Teacher of the Year by the Louisiana Science Teachers Association, the 2021 Bob Thompson Excellence in Energy Education award from The NEED Project, the 2021 Grand Prize Winner of the NSTA/Shell Science Lab Regional Challenge and the 2018 Essie Beck Rising Star Science Education award from the Louisiana Science Teachers Association.

Business Administration in 2008 and recently completed the alternative certification program to become a teacher through iTeach. She is certified in technology.

Though the school year was delayed due to Ida, once things began returning to normal, Harris was able to enjoy more in-person work with her students than was possible a year prior.

“This year, we were able to work in groups, do more hands-on type stuff,” she said. “It was a lot more fun.”

Harris said her favorite part of the job is forging a connection with her students.

“You get to talk to these kids ... I feel like I’m here because I love these students as if they are my own kids,” Harris said. “Our class is a little different ... they might not get to talk a lot in a regular class, but when they come on into exploratory, they’re unwinding and get to use that creative side. They’re able to move around.”

The first thing she does every year with

Kristina Harris with former student and current Tulane player Jha'Quan Jackson and his family.

“This is a second home,” she said. “This is a safe place where you can come and talk. That’s what I lead off with. Everybody has difficult issues in their life ... just because you come from a different background, doesn’t mean you

can’t succeed. You adapt, you conquer.”

Harris has lived in St. Charles Parish since she was in the third grade, and she enjoys being able to prepare students in her home region to put their best technological foot forward, just as she learned from her teachers in the past while attending Hahnville High as a student.

“I remember Mr. Brian Gough was at Hahnville, and we were one of his first tech classes, revamping the school website,” Harris said. “And when I got on in that role of implementing technology in the classroom, he said ‘Isn’t it funny that if you’d just stuck with this,’ and I said ‘I know.’ At the time, I didn’t want to go that route.”

But now, it’s part of what drives her.

“I have to do something that keeps me going,” she said. “Problem solving, and teaching the kids ways to think outside the box.”

experience is best for her once it reaches middle of the year.

“You get to know each other and build that bond with your little family,” Spears said. “At the beginning of the year, you’re learning to trust, you’re building that culture in the classroom ... you’re still learning one another. And then there’s a shift. They just come and start talking to you. They get to be themselves. And when that clicks, that’s absolutely my favorite part.”

Each year, Spears’ class gets to enjoy a “Cook and Book” event where, once a book is completed by the class, a food item featured in the story is chosen, and the class works together to help make a fun meal.

“In one book, just about everyone in it eats bread, so we’ll have different types of breads from around the world. Then we make butter. I bring a toaster oven, and we make little rolls. And that’s something I really enjoy because students come up to me years later and talk about how they remember that.”

It’s an activity Spears chooses because making learning less of a chore and more fun is a great way to keep students engaged.

“When they come back and say, ‘Your class was so fun,’” it makes me so proud. It just makes my day,” she said.

Lakewood itself, she says, quickly became a home for her upon joining the staff.

“They really support you,” Spears said. “They give you the resources. The teaching staff, the parents of the students ... and really St. Charles Parish as a whole is so supportive of their teachers. That was a big thing for me when moving here.”

ST. ROMAIN from 6A

St. Romain said. “But they are still learning how those letters work together to create words. They know basic addition and subtraction and can draw simple pictures to represent a problem. By the end of May, the transformation in reading and mathematics is astounding. Seeing them grow from slowly saying each letter sound when reading to becoming fluent, expressive and automatic independent readers is one of the most rewarding experiences to witness.”

St. Romain added that by May her students’ mathematical processes have grown, and not only can they solve complex addition and subtraction stories with missing parts, but they can explain their thinking.

“This growth is the best part about being a first grade teacher,” St. Romain said. “I strive to make an impact on my students’ lives. My ultimate hope is that my students remember the kindness and compassion I showed them as their first-grade teacher. If you think about it, teachers spend seven and a half hours a day with their students. That is more time than most parents spend with their children on a typical school day.”

St. Romain said she doesn’t think of her students as just students.

“In conversation, I often refer to them as my kids. We are a first-grade family and I love each and every one of them,” she said. “In my teaching practices, I work hard to build rapport and get to know my students. I treat them fairly, as equals, and with compassion. I get silly at times, and I know they enjoy the humor in our days. What I would like most for them to remember, is my love and compassion for each of them.”

what I’ve learned. I wanted to share what I do with the kids, just like my band directors did when they were my influences.”

Since 1979, that’s what Pittman has done. He has been with Luling Elementary for nearly 20 of his years as an educator, and he says there’s little that can match when things start clicking for a passionate student.

“It’s wonderful,” Pittman said. “As a matter of fact, I have a student now who is a trumpet player ... I needed an alto sax player, but she wanted to play the trumpet, pushed to play trumpet, just like I did. And lo and behold, she picked up the trumpet and ran away with it.

“You know, some of the students really, really want to learn, and others want that instant gratification. It can be a tug of war with some of the kids. But if they stick with it for any length of time, get over that hump, then the reward comes. ‘OK, I get this. I love this. I want to perform.’ And that’s so great to see ... I’ve had the chance to teach some serious prodigies.”

Pittman is a highly accomplished band director, even before beginning his time in St. Charles Parish. While working at Immaculate Conception School in Marrero, he started a band program with just 15 members; by the time he left, it had 1,500, won numerous awards and even had the opportunity to play for the Pope when the latter visited New Orleans in the 1990s.

When not working with his students, Pittman remains a professional musician, and he’s had former pupils come to see him play – and also to perform with him.

High profile matchups abound in Hahnville's 2022 schedule

Tigers to open at home with Manning, Newman

Ryan Arena Editor
ryana@heraldguide.com

The 2021 schedule asked much of Hahnville early on, as a delayed start due to Hurricane Ida left the Tigers with arguably their two toughest district games back-to-back to begin the season.

Hahnville began 0-2 in battles with Destrehan and East St. John, but quickly gained steam in Daniel Luquet's second season as head coach. Hahnville reeled off five wins in a row to finish the regular season, including four district wins by margins of at least 21. HHS overcame several injuries along the way before bowing out in round one of the playoffs, and both sides of the ball clicked, with the defense making huge strides in defensive coordinator Carey Melvin's scheme – after allowing 42 points to Destrehan in

HHS quarterback Donovan Friloux

game one, HHS allowed just 33 total points in its final seven games of the regular season.

The Tigers haven't had much of a pre-district schedule in either of Luquet's first two years guiding the team – thanks to COVID-19 and Hurricane Ida, the only non-district regular season games the Tigers have played were a 2020 season opener against Higgins and a mid-season clash with De La Salle last year. Assuming no more disasters – knock on wood – that will change in a big way this year, with a pair of very high-profile matchups highlighting the Tigers' four non 7-5A clashes.

Hahnville will first tangle at home with Jesuit in what's been a recent jamboree tradition, with several exhibition matchups

between the teams in recent seasons. The late starts to each of the past two seasons have kept jamboree action from happening, but one can expect a physical battle as always when these teams lock up.

Once the real action begins, Hahnville kicks off the season with a marquee matchup – Newman will visit Tiger Stadium, led by Texas-committed star recruit Arch Manning. The Greenies went 7-2 last season and reached the state semifinals of Division III, scoring between 28 and 70 points in each of the teams wins. The Tigers enter year two under QB Donovan Friloux and the Tigers project to score plenty, while the Hahnville defense emerged in a big way last season – and will likely

be motivated to show out against a big-name passer.

Mandeville in Week 2. Mandeville went 3-6 a year ago and will be look-

HHS rusher Joshua Joseph.

From there, Hahnville takes on two squads from the northshore of New Orleans, starting with a home date against

ing to bounce back. In Week 3, the Tigers travel to Northshore, which went 5-5 last year and ended the season with a

37-30 loss in round one against West Monroe, giving the Rebels all they could handle in a double-overtime battle.

District 7-5A play begins in Week 4, and there will be no shortage of hype as Hahnville visits Destrehan off the bat. Unlike last year, this won't be the kickoff game to the season – DHS and Hahnville were last year's kickoff game due to the delay caused by Ida. Hahnville will want payback against a Destrehan team that's felled them by 35 in that 2021 meeting.

A week later, the Tigers host East St. John, historically a tough battle. ESJ has won two in a row over HHS, including an 8-3 defensive slugfest in Week 5 of the 2021 season. The Wildcats finished 3-4 last season in a year that saw their school and facilities ravaged by Ida.

Hahnville hosts Thibodaux in Week 6, a visitor that went 3-4 a

into their district bye, where another marquee non-district foe awaits. Hahnville will travel to Lutchter to face one of the state’s traditional powers. Lutchter went 9-2 last season, including a run to the 3A quarterfinals where the No. 6 seed Bulldogs lost a shootout to St. Martinville, 59-42. A month before the postseason, both teams will likely view this as a litmus test.

Week 8 sees Hahnville hit the road for a battle with H.L. Bourgeois, which went 4-4 last season and earned the No. 23 seed in the 5A playoffs. The improving Braves will look to take another step against a Tigers program that’s had their number, including last season’s 21-0 HHS victory.

Hahnville remains on the road in Week 9 as it makes the trip to face a Central Lafourche team that struggled throughout 2021, going winless. The Tigers logged a 49-13 victory over the Trojans in 2021. The regular season finale comes at home for HHS as it welcomes a Terrebonne team that, like Central, had difficulties post-storm a year ago, with some key transfers leaving THS limited. Terrebonne went 1-6 last season, including a 31-0 loss to Hahnville in last year’s Week 10.

Local couple lands in top 10 for nationwide SilverSneakers Member of the Year Award

Larry and Mary St. Germain
are active members of
Anytime Fitness.

Monique Roth Lifestyles Editor
moniquer@heraldguide.com

Destrehan residents Larry and Mary St. Germain are in the running to win the SilverSneakers Member of the Year Award – a national award presented to a SilverSneakers member who embodies the healthy lifestyle that the program encourages and has improved his or her own life by incorporating physical activity while inspiring and motivating others.

Nancy Schaefer is the SilverSneakers instructor at Anytime Fitness Destrehan. She nominated the St. Germains for the contest, and earlier in July they were named as top 10 finalists.

"Larry and Mary are over the moon with excitement," Schaefer said, adding that the couple's story is quite a testimony of St. Charles Parish's welcoming spirit to newcomers in the community.

Married for 59 years, the St. Germaines were born and raised in Golden Meadow and moved in Destrehan in 2012 to be closer to one of their sons and his family.

“Larry and Mary share their story of coming to a town where they did not know many people and began to search for places to become part of the

community,” Schaefer said. “The couple discovered SilverSneakers close to their new townhome and began taking classes there together three to four days a week.”

Schaefer said it wasn't long before Larry and Mary became leaders in their classes.

“They became the ‘silver stars,’ welcoming new members in and introducing them to other members,” she said. “The St. Germaines are the first smiling faces at every potluck helping with setting up and they are the last ones to leave after offering a helping hand to clean up. Mary loves sharing her Cajun cooking with the class bringing in her Cajun fricasee for a potluck and her Cajun cookies at Christmas time.”

Staying active was the couple's main priority in joining the program, Schaefer said, as Larry's family history is prevalent with heart disease and Larry himself had a heart attack at 42 years old.

“Most of the men in my family died of heart disease before they reached age 65,” Larry said. “I never expected to live to be 77 years old.”

Schaefer said the St. Germain's are committed to their SilverSneakers classes and working out in the gym. After Mary recently had knee replacement surgery, her doctor was extremely impressed by her ability to bounce back so quickly. He told

Mary that being a SilverSneakers member was key to her rehabilitation and encouraged her to get back to it as soon as possible after her surgery.

AWARD from 3B

“There is a quote in the Bible that we try to live by ... ‘Do unto others as you would have others do unto you,’” Larry said. “That is the way we try to lead our lives.”

Mary and Larry are always giving back to their community, Schaefer said.

“They joined the Community Outreach Team, a volunteer group, at Anytime Fitness and gave their time and talent to the Matthew 25:35 food pantry located next door to the gym,” she said. “They are highly active in their church, cleaning the church weekly and heading up the yearly St. Joseph Altar cookie making.”

Most recently Mary received an award for the Most Volunteer Hours During the Pandemic with the parish’s Retired Senior Volunteer Program. She was instrumental in sewing masks at the beginning of the pandemic - sewing for eight hours a day and making over 700 masks.

“It is worth noting too, that Mary and Larry are always including their classmates in their community outreach endeavors,” Schaefer said. “Anyone that is lonesome or bored ... they will get the SilverSneakers members involved. They often befriended classmates, taking them out for lunch and visiting them when they were sick. The St. Germaines are always at every birthday celebration showing their sincere love for the SilverSneakers community. Larry and Mary truly lead their lives with a servant mentality.”

Larry and Mary St. Germain are in the running to win the SilverSneakers Member of the Year Award.

Schaefer said that Larry is affectionately called Batman throughout the community. It started after he began dressing up as a superhero to entertain his children and grandchildren at Mardi Gras.

“He would also visit schools and church fairs spreading his superhero magic,” Shaefer said. “Make-A-Wish Foundation reached out to him and asked him to meet a local young 5-year-old boy with cancer. The boy’s wish was to meet Batman. Larry played Batman and his grandson played Robin. They were able to fulfill the young boy’s dream. This was the beginning of Larry’s crusade to bring joy to the little children by allowing them to meet a real-life superhero. He has since been involved in many activities

throughout the year as Batman.”

This year the 18th annual Silver Sneakers Member of the Year Award will be decided online by national voting that began July 25 and will run through August 1. Visit <https://moyawards.silversneakers.com> to vote daily.

“They are role models of all the remarkable things that happen at SilverSneakers,” Schaefer said of the couple. “They embody wellness through movement. They embody wellness through social engagement in the gym, and they embody wellness through community involvement. This superhero couple is a true inspiration to everyone they meet and make the world a better place.”

“Don’t Worry”

Philippians 4:6-7

Be careful for nothing, but everything by prayer & supplication with Thanksgiving, let your request be known unto God. And the Peace of God which passes all understanding, shall keep your hearts & minds through Christ Jesus. We are told not to worry about anything. God has everything in His control. All we can do is pray & believe & God will take care of everything for us. Sometimes we need the strength of the Lord, to keep us going & not to worry. But we have to believe, trust & obey and let God have His way, He knows what is best for us.

6. **REPORTING TO THE STATE OCM**
The OCM is responsible for including local program permitting information in the semi-annual Louisiana Coastal Wetlands Conservation Plan Report and the Quarterly Legislative Report on OCM performance indicators. In order to supply the data needed to populate these reports Code Sheets for all permitting, enforcement, and mitigation actions are used:

- All code sheets used for permitting, enforcement, and mitigation reporting shall be completed (including all information on habitat impacts and AAHU/CHU derivations) and forwarded to OCM upon the parish receipt of a local concern determination permit application and upon the issuance of a permit and/or the final agreement of a mitigation plan.
- These forms are as follows:
 - Local Coastal Programs Coding Sheets shall be submitted for every application determined to be of local concern within three working days of electronic transmittal to the parish by OCM. Local Coastal Programs Coding Sheets are also to be updated and submitted when the application is placed on hold and when issued.
 - Impacted Habitat Form shall be submitted within three working days of initial electronic transmittal to the parish by OCM for all local concern applications, except those which are exempt from permitting because they occur outside the coastal zone and do not have impacts to coastal areas or waters;
 - Habitat Benefit Forms shall be submitted within three working days of initial electronic transmittal to the parish by OCM for every local concern activity for which compensatory mitigation is assigned by the LCMP.

7. **APPEALS PROCESS**
A copy of all documentation in a case of an appeal for a use of local concern shall be placed in the parish permit file and a copy shall be forwarded to the OCM within five working days of receipt by the parish LCMP. The state shall be kept informed in writing of all findings in such cases

8. **VARIANCES**
A copy of all variances, with findings, once approved by the Secretary of the Louisiana Department of Natural Resources (LDNR), shall be kept in the application file and in the parish permit file, and a copy shall be sent to the OCM within five working days after receipt by the parish LCMP.

9. **ENFORCEMENT PROCEDURES**
The parish LCMP shall investigate any unpermitted activities as well as activities that might result in non-compliance with state or local rules and regulations or with permit terms and conditions. This pertains to activities discovered by, or reported to, the parish. The parish LCMP shall investigate the activity and, if appropriate, request that the party conducting the unauthorized activity submit an after the fact Coastal Use Permit (CUP) application. The parish LCMP investigation shall follow enforcement procedures provided in La. R.S. 49:214.36 and the parish LCMP document and ordinance. If appropriate, the parish may seek to impose a fine or other appropriate civil or criminal penalties.

II. ADMINISTRATION

1. **MANAGER'S MEETINGS**
OCM will conduct manager's meetings and/or special training during this contract period. Attendance at manager's meetings and/or special trainings is mandatory for LCMP administrators. If a parish administrator is unable to attend a scheduled manager's meeting he/she must make arrangements to have an assistant or an advisory committee member attend as a representative.

2. **INVOICES**
The LCMP Administrator shall forward the following information regarding state and local permit uses to OCM by the 15th day of the month following the end of the quarter.

- Requisitions for Payments, In-kind Contribution Reports with Monitoring Report; and
- Completed "Standardized Local Coastal Program Reporting Form" (see attached).

3. **ANNUAL REPORTING**
Pursuant to L.A.C. 43:1.725(F) an annual report shall be submitted by the LCMP for by the 15th day of the month following the end of the fourth quarter of local program implementation to the OCM. This information is captured by submission of the "Standardized Local Coastal Program Reporting Form" and other pertinent sections of the contract reports with each invoice. The report includes the following:

- the number, type, and characteristics of applications for Coastal Use Permits,
- the number, type, and characteristics of Coastal Use Permits granted, conditioned, denied, and withdrawn,
- the number, type, and characteristics of permits appealed,
- the results of any appeals,
- a record of all variances granted,
- a record of any enforcement activities and actions taken (enforcement activities reported by the state program to the parish LCMP or activities discovered by the parish),
- a description of any problem areas within the state or local program and proposed solutions to any such problems, and
- proposed changes in the state or local program.

While much of the information required by L.A.C. 43:1.725(F) is captured in the submission by the parish LCMP of deliverables required by the on-line data base throughout the contract period, the parish must still provide a detailed written report of all of the pertinent questions on the "Standardized Local Coastal Permitting Reporting Form." OCM will conduct an end of the contract performance evaluation of the parish program at the end of the contract term, as well as, the statutorily required periodic review of each program as necessary.
