Haunted night tours now offered at Destrehan Plantation

Jonathan Menard Publisher
jonathanm@heraldguide.com

For decades, stories have persisted about hauntings at Destrehan Plantation. Now, visitors can seek to experience those paranormal activities for themselves.

Destrehan Plantation recently partnered with NOLA Ghost Riders to offer the only night tour of the plantation. The tours began in October, and since then more than 1,000

people have traversed the plantation on a quest for ghosts.

The tour is an interactive and engaging experience, not just a passive tour, that includes using equipment like dowsing rods, K2 meters and spirit boxes. This equipment helps to communicate with the spirits in the house and around the grounds, Tracy Smith, executive director of Destrehan Plantation, said.

Rescuer warns against abandoning domestic rabbits after one found in Destrehan dies due to injuries

Donna Rome, who helped rescue two pet rabbits from near a canal around Ormond Place, is warning the public that these cuddly creatures are not discardable, especially after one of the animals had to be put down due to the suffering it endured during the ordeal.

Rome was at work in Metairie when she got a call about the first rabbit, which was found in the dirt and grass across the canal from Ormond Place. The bunny was soaking wet, Rome says. She was called into action by a man who lives in one of the nearby condos, Ray

Hannah Freitas heard the words on the phone – she just wasn't sure she fully believed them.

"She said that there are no signs of cancer on the scans," Freitas said. "I didn't really know what to do ... it didn't feel real."

That morning, Freitas had gone to her doctor for a PET scan in relation to the diagnosis she had received in August of 2023: small cell carcinoma of the ovary hypercalcemic type (SCCOHT), a very aggressive and very rare cancer. At just 24 years old at the time, Freitas was told this diagnosis carried a life expectancy of just 14

Dale Sanders reaches shore in Luling during 2022 record-setting paddle of Mississippi River.

Documentary released covering world-record breaker’s trek through Luling

Ryan Arena Editor
ryana@heraldguide.com

In August of 2022, “The Greybeard Adventurer” Dale Sanders made a stop in Luling near the end of his Guinness World record-breaking performance that saw him paddle the entire length of the Mississippi River in his canoe – his goal was to do so in 87 days at 87 years old, beginning the trek on his 87th birthday.

“And I did it, too,” Sanders said.

The 2,340-mile adventure saw him reclaim the Guinness World Record for oldest person to paddle the length of the Mississippi River. His time in Luling included a greeting at landfall by the students of the St. Charles Parish Satellite Center’s Hotel, Restaurant & Tourism program, a hot lunch made courtesy Birdies Food and Fuel and a tasty dessert by Chef Pat Phelan and culinary arts students.

That day, he spoke of the documentary film crew that was chronicling his trip. That film – titled “Greybeard: The Man, the Myth and the Mississippi” is now a reality and has been making the film festival and public screening rounds – even earning “Best Canoe Film” at the Paddling Film Festival and “Inspirational Film Winner” via Paddle Canada.

“I like it,” said Sanders of the film. “I’m getting a lot of comments from people that it’s not the typical documentary

format of ‘on this day we did this, and then on this day we did that.’ It’s a real story – really, two stories, with a little bit of background on my wife and I, and then also about the adventure.”

Drone shots of that adventure used in the film give a unique view of exactly what Sanders had to navigate.

“You usually don’t see – people don’t realize how crooked and isolated that river is up in Minnesota, and now they do,” Sanders said. “They had three drones dedicated to it and the footage is fantastic.”

He holds six world records, two of those in the Guinness book.

Sanders recalled the day in Luling fondly, just eight days before his record-breaking landing.

It was a challenging trip at times – particularly due to the weather. Sanders said he’d never seen wind like he’s encountered that season.

“It’s the worst enemy of the paddler – head wind” he said. “If it’s tail wind, it’s good. Last night, we were blessed. We got off the river, and 30 minutes later, it was the biggest rain you’ve ever seen.”

This, Sanders said, was his last time paddling the Mississippi. He has zero plans to stop seeking adventure,

For first time, Head Start centers will offer free community playgroup for non-students

Jonathan Menard Publisher
jonathanm@heraldguide.com

For the first time, St. Charles Parish Public Schools’ Head Start centers will host a community playgroup targeting children ages four and under who are not enrolled in school or daycare.

“Our management team and policy council met to see how we can increase our enrollment in our Head Start and Pre-K programs. We currently hold playgroups monthly for our currently enrolled students, but (community playgroup) is a time for non-students and families to engage in activities,” Nicole Weber, Administrator of Head Start and 4-year-old Programs for the school system, said. “We mirrored what occurs at school sites, inviting families with children birth to four who are not currently enrolled in a school to come and see what our centers have to offer.”

The main goal of the community playgroup is to expose the public to the school system’s Head Start sites to increase enrollment.

The monthly group is for current students to participate in activities with their families, while the community playgroup is for non-students.

The upcoming community playgroup, which is scheduled for Feb. 20 from 9:30 a.m. - 10:15 a.m. at Carver Early Learning Center, will be similar in format to that of the monthly playgroups.

“Our monthly playgroups are a way to engage families in a child’s educational journey,” Weber said. “Pre-kindergarten is ‘where a child’s story begins,’ which is our motto. We utilize the current Pre-K curriculum to plan playgroup activities, so they are able to make classroom connections. Students and families practice social skills as well as academic skills.

“We encourage fun, singing and dancing, too.”

During the playgroups, families and students listen to stories, participate in music and movement activities, and create a craft.

“One month students listened to ‘Pete the Cat Rocking in His School Shoes’ and created life-sized guitars to take home,” Weber added.

For more information, contact (985) 783-6617. Carver Early Learning Center is located at 337 Gum St. in Hahnville.

“We wanted the chance to ‘showcase’ things that occur with our current students as well,” Weber said.

Typically, around 20-25 students attend Head Start’s monthly playgroups, which are held at each of the school system’s Head Start campuses.

Access Health program helps patients achieve opioid-free life

Jonathan Menard Publisher
jonathanm@heraldguide.com

Access Health Louisiana, which operates community centers in both Luling and Norco, is offering a program that allows patients to achieve an opioid-free life and reduce the risk of overdose through medication, primary care, counseling and ongoing case management.

“Often, opioid use disorder stems from untreated mental health conditions but also include self-medicating trauma or having been prescribed opioids for a condition that led to dependence on them,” Leigh Ann de Monredon, director of Medication Assisted Treatment, said.

The MAT program, short for Medication Assisted Treatment, includes being linked with a primary care provider to assess for acute conditions as well as treat chronic conditions and routine screenings. Each patient receives an American Society of Addiction Medicine (ASAM) risk assessment to determine what level of care would serve the patient’s needs best.

The ASAM risk assessment includes a collection of the patient’s history of substance abuse, what substances they last used, detox and treatment type performed in the past as well as the patient’s social, mental health and medical history.

“The patient is also seen by an opioid use disorder prescriber to assess for readiness for change, provide at home induction onto buprenorphine, treat mental health conditions, and provide counseling to help individuals avoid relapse and learn how to navigate triggers that may lead to relapse,” Monredon said.

Access Health Louisiana is offering a program that allows patients to achieve an opioid-free life and reduce the risk of overdose through medication, primary care, counseling and ongoing case management.

“Patient will also be provided an on-site visit for labs and vital signs, as well as a primary care provider appointment to establish care for routine healthcare and needed screenings for hepatitis, STIs, Well Woman exams, etc.

The MAT program visits with a prescriber and counselor are virtual. The primary care appointments and lab appointments occur on site at Access Health.

Those interested may call the front desk number for Access Health at 866-530-6111 and ask for help with opioids or use other key words, such as heroin, detox, pills, or fentanyl that alert the call center to communicate

same day with the MAT program to contact the patient for immediate assistance. In that call they will be provided a primary care appointment, however, they will see a MAT provider for harm reduction and initiate care prior to the primary care appointment when indicated.

Within the agency, patients who are identified as needing support for opioid use or have asked for it are referred directly into the program.

Video from Louisiana Spirits Paranormal's recent investigation at Destrehan Plantation.

The guides used for the tour are experienced in paranormal investigations.

“There has always been stories from tour guides at Destrehan Plantation about unusual paranormal experiences,”

Smith said. “Over the years, we have received interest from ghost-themed programs about filming here but we have never followed through with any filming.”

NOLA Ghost Riders approached Smith about offering a night tour a few years ago, but then COVID hit.

“Last year we revisited the idea and decided it was the right time to offer the haunted night tour beginning in early October. Since then, we have had several paranormal investigations at the plantation conducted by LA Spirits Paranormal, with interesting results,” Smith said. “There are several YouTube videos of the investigations on their site.”

According to NOLA Ghost Riders’ website, the haunted plantation tour treats Destrehan Plantation as the backdrop for exploring diverse people such as enslaved Africans, free creoles of color, Acadians and Native Americans who shaped the unique landscape and cultural “gumbo” of Louisiana during its first 100 years.

“Hear The chilling stories left behind by the 1811 slave revolt and walk among the spirits that still inhabit the home,” the group says. “Discover how Voodoo came to south Louisiana and became what it is today – a fusion of African, Haitian and Catholic spiritual beliefs

and practices. The mysterious world of Voodoo is one of the most misunderstood and feared religions in the world. Explore with us the riveting truth with a longtime storyteller and how it differs from what you’ve heard.”

Smith, who said he has experienced an otherworldly presence during his time at Destrehan Plantation, said tours are currently offered Thursday through Sunday. The tour normally starts at 7:30 p.m. and takes around two hours.

“We anticipate a lot more people as we go into the busy spring season,” Smith said.

Tickets can be purchased from both the websites of Destrehan Planation and NOLA Ghost Riders. To purchase tickets from Destrehan Plantation, visit www.destrehanplantation.org and click on tours. To purchase from NOLA Ghost Riders, visit nolaghostriders.com/tours.

Tickets for those who don’t need transportation are \$39 per adult and \$35 per child. Those that need transportation leave from Decatur Street in New Orleans and the cost is \$69 per adult and \$49 per child.

RABBIT from 1A

Bealer, who had spotted the rabbit.

“Ray had tossed some fruit for the bunny to eat, and he moved him to taller grass so he wouldn’t be seen by predators,” Rome said “After the call, he went get the bunny and put him on a towel in a laundry basket.”

Rome added that rabbits cannot monitor their body temperature, so if they get wet they could lose body heat and go into shock.

“They need to be dried right away,” she said. “That’s why it is never recommended to give a rabbit a bath.”

Everett the rabbit had a minor case of ear mites and a missing toenail but will be adopted after his vet care is finished.

After picking up the small breed lionhead rabbit, Rome noticed that its ears were completely crusted with mites and it had a crooked front paw and a bleeding foot. The rabbit was also missing several toes.

“I put him on some shredded paper and put a heater near him and wrapped him in a dry towel,” Rome said. “I named him Delmar since he was soaked and saved.”

The name comes from the movie, O Brother Where

Donna Rome

Art Thou, which stars George Clooney.

Rome called Avian and Exotic Animal Hospital and brought Delmar in for an exam.

“Delmar had several broken toes and necrotic tissue and bone sticking out of his skin,” she said. “His twisted paw was determined to be an old injury.”

Just two days after bringing Delmar to the hospital, Rome got a call about another discarded lionhead rabbit located in the same block at the corner of Houmas Place and Ormond Place.

“The resident, Kenny Laney, put him in a box and had him waiting for pick up,” Rome said.

She named the new rabbit Everett, also a character from the movie O Brother, Where Art Thou.

Meanwhile, Rome got some bad news about Delmar. The hospital had discovered that the rabbit had additional swelling on the right back foot, a recent fracture, a puncture wound and an abscess on Delmar’s right front leg that would need amputation.

“I had to make a decision to let Delmar go,” Rome said. “He would not have recovered well enough to ever be adopted and there is no guarantee he would have no

issues in surgery. The bill would have shot up to about \$800 and that wasn’t something I could prepare for.”

The news about Everett was much more positive. He only had one missing toenail and a minor case of ear mites, which Rome treated.

“He still needs his exam and neuter, but a rescue friend volunteered to take him and sponsor his vet needs,” Rome said.

That friend will also adopt Everett.

“Domestic rabbits do not have the instincts to survive in the wild,” Rome said “If they are white, there’s a target on their back. Hawks, owls, cats, dogs, coyotes, crows and other predators will hunt and eat them. Domestic rabbits also can pick up dangerous parasites from eating contaminated grass or drinking contaminated water.

“There’s too much ignorance concerning pet rabbits in the United States, or at least here in Louisiana. They are straddling a strange existence between livestock and exotic pet.”

CANCER SURVIVOR from 1A

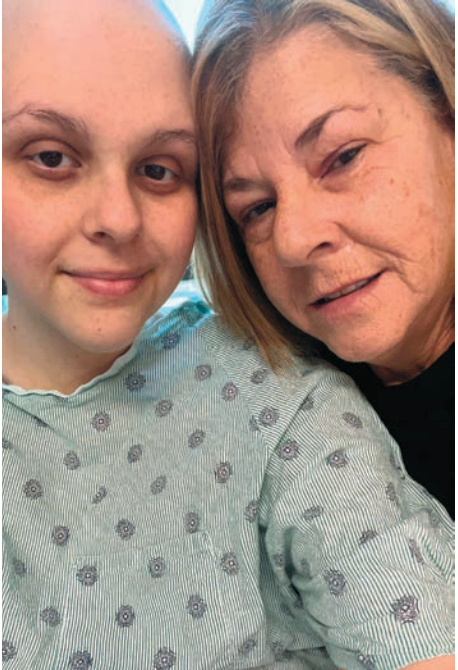

months.

Less than eight months later, instead she has learned her cancer is in remission.

“I’d never gone for a PET scan before. I had no idea what to expect,” Freitas said. “So I wasn’t really thinking there would be any news there. When (the doctor) called me later that day, she said she always saves her best news for the end of the day to end on a good note (and she delivered the news).

“I just asked, ‘Really? Can I say the word ‘remission?’”

Doctors first discovered signs of the

Hannah Freitas with mother Melissa

cancer when an emergency room visit to address a persisting pain in her stomach revealed Freitas’ problem was likely something much more than a typical stomach issue.

A tumor was removed just two weeks later and local area doctors had to send samples off to be reviewed and tested at a Northeast hospital, as Hannah’s tumor appeared to be so uncommon most local physicians had not seen a case of it locally before. It was later classified as SCCOHT. There are no established standard treatments for SCCOHT, and most patients are treated with a combination of surgery, chemotherapy and radiation.

While Freitas is still weakened by her battle – she needs a walker and wheelchair to move currently as her body strengthens – she’s excited to be able to look ahead at the life in front of her.

“I should be able to do things again that I thought I might never be able,” she said. “I’m a flute player and that’s something I haven’t been able to do ... music is a huge part of my life and that being taken from me bothered me a lot. That I can possibly do that and a lot of other things again, it’s motivating.

“I’m still processing everything, honestly. It’s been about two weeks since the news and I’ve still kind of not been

believing it.”

This was the second time cancer has affected her family. Freitas lost her father, who passed away nearly 15 years ago following his own battle with the illness.

She knew some of what to expect. Other things she was far from ready for.

“It’s been a lot (to deal with),” Freitas said. “I’ve had my deal with cancer before – my dad went through it. I had an idea of how things would go on. The physical part of it, I had no idea. The first

few rounds of chemo were OK. There weren’t many side effects. The fourth round is where I got weak. There were a lot of hospital stays, Christmas and New Year’s in the hospital.”

Freitas is about to begin stem cell transplant treatment which will hopefully accelerate her road to physical recovery.

She credited her mother Melissa, a longtime St. Charles Parish Sheriff’s Office deputy, with keeping things positive and Freitas’ treatment on the right track.

“I have pretty bad anxiety and I’m not a positive thinker in general ... my mom helped with that,” said Freitas. “She stayed positive the whole time, stayed on ‘this is what we have to do today’ Doctor’s appointment today, chemotherapy tomorrow.”

Freitas added the support of the community and so many others around her meant an incredible amount to her.

“It truly meant the world to me that so many people came together for me. There are so many people I didn’t realize would be so kind-hearted. People maybe I haven’t talked to in years from my past that would leave positive messages ... it left me speechless in a way,” she said.

however. He simply has other dragons to slay.

Already, he has his sights set on his next one – and yes, it’s another record, one he looks to reclaim from a friend of his. He’s submitted his application to Guinness to attempt to become the oldest person to hike the entirety of the Appalachian Trail in 12 months or less. He plans to begin that trek in October 2024, at the age of 90.

In 2017, he held the record at 82 years old. A friend of his – with Sanders along with him for several sections of it – broke his record at age 83. Sanders says that same friend has committed to joining him for sections of the hike upon the attempt to re-break the record.

“I didn’t wish him bad luck, but good luck,” said Sanders on his record being broken, “There’s too much negativity out there. I support him, he supports me.”

Dale Sanders welcomed ashore by Satellite Center students.

Tigers set to host Northshore tonight in opening round

Destrehan hosts Fontainebleau tonight to round out a big night of playoff action in parish

Saige Stewart of Hahnville

Ryan Arena Editor
ryana@heraldguide.com

After two straight losses, Hahnville had everything to play for in its final game of the regular season at H.L. Bourgeois – the District 7-5A crown was on the line as well as a bit of momentum to propel the Lady Tigers into the playoffs.

Mission accomplished.

Saige Stewart scored 21 points to lead the way as Hahnville defeated Bourgeois 65-43 to clinch the district championship. Hahnville and Destrehan tied atop the league, each finishing with two losses and splitting the head-to-head

“(Stewart) is in a good rhythm offensively for us. She’s knocking down shots and making big plays ... every time the team needs her, she’s there.”

— HHS coach Joshua Bellaire on Saige Stewart

matchups between the schools. HHS head coach Joshua Bellaire said district tiebreaker rules go to the higher seed in power rating – in this case, Hahnville, which earned the No. 12 seed in the Division I playoffs. Destrehan earned the 16th – both will host opening round games.

The Tigers (23-5) will host Northshore in round one at 7 p.m. Thursday in Boutte. Bellaire said the final game of the season was exactly the way he hoped for his team to get ready for the playoffs.

“My girls put in a lot of work and a lot of time down the stretch – we got really focused and we were able to close the season the way we wanted to,” said

Dihlynn Mitchell of Hahnville

Bellaire. “We dropped two back to back, lost those in the fourth quarter ... I felt like we didn’t do enough adjustments to make sure we made the plays we needed to in the end. So this last game, I wanted to make sure we were ready to play, and the girls were – we started off fast and never looked back.”

Stewart, as she’s been all season, was strong for her team, also dishing out five assists to go with her game-high point total.

“She’s in a good rhythm offensively for us,” said Bellaire. “She’s knocking down shots and making some big plays.”

Bellaire recalled back to Hahnville’s

double-overtime victory at East St. John where Stewart sank a tough contested three to extend the game to O.T.

“We needed it and she hit nothing but net,” Bellaire said. “She makes those kinds of shots for us. Every time the team needs her, she’s there. That’s all you could ever ask for as a coach ... Saige is there night in and night out.”

The two recent losses, meanwhile, had snapped what was an eight-game winning streak for Hahnville – a 54-43 loss at home to Thibodaux and a 50-42 non-district loss to Warren Easton.

“I look at it as it’s better to get that out the way now than have it happen in the

playoffs,” said Bellaire. “You look and see what happened in those games and make adjustments. It made that last win all the more important, since you never want to back into the playoffs with three losses in a row. It was really important to go in on the right track.”

Northshore (21-12) enters as the No. 21 seed in Division I. Four forfeited games to begin the season for the Panthers could indicate this is a tougher matchup than the seeding would indicate, however – the team would be 25-7 if not for those – and the team is entering the playoffs on a five-game winning streak.

DESTREHAN EARNS 16TH SEED, WILL HOST – Destrehan, meanwhile, is readying for its own round one game today as it hosts No. 17 seed Fontainebleau at 6 p.m.

The Wildcats have been remarkably consistent following a 4-5 start to the season – DHS is 13-2 since, with its only losses in back-to-back games to Thibodaux and Hahnville last month. Destrehan has won four in a row, including wins over Bourgeois, Central Lafourche, Terrebonne and a regular season ending 45-40 non-district victory over Salmen.

Fontainebleau enters with a 22-8 mark. The No. 17 seed bounced back from three recent losses to close the season with wins over Mt. Carmel and Hannan.

Hahnville looks to finish regular season strong Friday

Moore earns 43-point performance, 10-block triple-double in pair of victories

Calvin Smith of Hahnville

Ryan Arena Editor
ryana@heraldguide.com

A four-game winning streak for Hahnville was snapped last week by host Country Day, followed up by a tough loss at H.L. Bourgeois that secured the District 7-5A championship for the Braves. As the Tigers conclude the regular season Friday at Terrebonne, HHS head coach Erica Randolph says what’s important now is how her team responds.

“Every loss is a lesson learned,” said Randolph. “We need to figure out how to take that that lesson and move forward, and I think we’re doing that.”

“Every loss is a lesson learned. We need to figure out how to take that lesson and move forward ... I think we’re doing that now.”

— HHS coach Erica Randolph

The team has just gotten past a recent flu bug that swept through the roster – that means the Tigers have been making up for lost time in the gym at practice as it looks to secure a first

round playoff game at home. Hahnville entered the week ranked No. 13 in Division I power points, meaning not only would the Tigers host round one if it maintains that seeding, but it would avoid the tourney’s top seeds until late into the bracket.

Randolph said that if Hahnville (18-11) can take care of business this week and win its final two games – in addition to the road game at Terrebonne, it was to face Central Lafourche Wednesday night after press time – that should ensure the Tigers finish at least that high, and opening at home would be a big lift – the Tigers are 10-4 in Boutte.

“We play our best at home,” Randolph said. “We’ve shot really well in our gym, and away we’ve had our struggles.”

That said, for Hahnville to go where Randolph and her players are

looking to go in the playoffs, the team will have to elevate its performance away from home.

In the Tigers’ 62-43 loss to Bourgeois, the Braves attacked Hahnville with a clear plan – eliminate HHS leading scorer Jordan Moore by sending extra defenders whenever possible. Randolph said Bourgeois had a similar approach in the first meeting between the teams – a 65-64 Braves win in Boutte – but that it proved more effective this time around.

“They’d done it before and it didn’t stop him,” Randolph said. “This time, it worked. We need to be able to figure it out when teams send two or three at him,” Randolph said.

It’s easy to understand why teams would look to double – Moore has been spectacular this season, and perhaps even playing his best ball of late.

in a 73-71 win over Terrebonne, Moore had 11 points, 10 rebounds and 10 blocks – a rare and unconventional triple-double given the block total. Against Central Lafourche, Moore scored 42 in a 86-59 victory. On the season, Moore

averages 21 points per game.

“He’s been phenomenal,” said Randolph.

The Tigers had to win without both Jordan and Jamal Moore against Thibodaux and Eli Harris

lifted his game in their stead, scoring 17 points to help lift his team in a 67-38 victory. Harris sank three 3-pointers on the night, flashing his long range shooting gifts.

“He really stepped up for us,” Randolph said. “The challenge for him is we need him to be consistent all the time, night in and night out, and he’s going to grow into that.”

Calvin Smith also had a big night against THS, adding to a long-list of double-double performances on the season. Smith scored 10 points and grabbed 12 rebounds – he averages double-figures in both statistics this season.

In Hahnville’s recent 68-64 district win at home over River Parishes rival East St. John, Moore scored 21 points, grabbed eight rebounds and blocked five shots, while Ahmand Simmons had 17 points, six rebounds and five assists. Harris had another strong night from the outside, scoring 18 points including four 3-pointers.

‘Every fiber of my being is shaking’ – Hurst teacher reflects on \$25K surprise

Ryan Arena Editor
ryana@heraldguide.com

Harry Hurst teacher Lauren Waguespack reacts to surprise announcement that she’s earned a \$25,000 prize.

Though a bit of time had passed since she’d heard the news, Lauren Waguespack still hadn’t quite processed everything.

The Harry Hurst Middle School sixth grade science teacher was sitting in her chair for an assembly at Hurst when a special visitor to the school, Lowell Milken, took the microphone to address the crowd.

He announced that he was there for a particular reason – to award a prize to a very deserving educator. That prize was revealed – creatively – by a group of Hurst students who brought up signs that collectively spelled it out: \$25,000 to the winner, who would be the fourth and final Louisiana recipient of the 2023-24 Milken Educator Award.

Milken asked for an envelope and read the contents inside. Waguespack’s name emerged – and she was beside herself with disbelief.

“Every fiber of my being is shaking,” Waguespack said. “I’m just trying to wrap my head around it.”

The cash prize can be used for any purpose. State Superintendent Dr. Cade Brumley joined to celebrate Waguespack as a model for the state and nation.

Waguespack becomes a member of the Milken Educator network, a national group of professionals working to “Celebrate, Elevate, and Activate” the K-12 profession.

“Through her innovative teaching methods and profound commitment to student achievement, Ms. Waguespack’s impact resonates inside her classroom and throughout her state,” said Brumley. “Her hands-on approach to science takes students on a journey that helps prepare them for success after graduation.”

Hailed as the “Oscars of Teaching,” the awards will honor up to 75 recipients across the country in 2023-24 as part of the Milken Family

Waguespack’s shock was real – this is not an honor one can even apply for. She was completely unaware of even her candidacy for the award.

Recipients are sought out while

early to mid-career for what they have achieved – and for the promise of what they will accomplish given the resources and opportunities afforded by the award.

Whether it is in her sixth grade science classroom, coaching the school’s dance team, or leading the district’s professional development opportunities, Waguespack’s enthusiasm for teaching has left its mark on nearly every corner of the community. Former students often visit her during their lunch periods and parents remain connected with her long after their students had her as a teacher.

In her classroom, Waguespack goes beyond conventional teaching methods to prepare her students for future success in STEM, creating an environment where learning becomes a captivating journey. When the class studied Newton’s Laws of Motion, she developed a Mars Rover Landing Project, and when the class began learning about pitch, frequency and wavelength, she incorporated audio and visual formats to enable students to better grasp the material.

The efforts have paid off: Waguespack’s students receive high marks on the state science assessment, motivating them to attain even higher levels of achievement.

Waguespack’s influence extends far beyond the classroom, shaping her into a strong teacher leader and community advocate. Waguespack is often filmed by the school district during her classroom instruction to help other teachers learn from her practices. She is involved in nearly every committee on campus – chairing the School Improvement Team, leading the sixth-grade teacher faculty, serving as Technology Site Coordinator, mentoring new teachers and facilitating new teacher orientation at Harry Hurst Middle School, as well as volunteering as a state Teacher Leader Advisor.

A graduate of Southeastern Louisiana University, Waguespack earned a Bachelor of Science in education in 2010 and a Master of Education in educational leadership in 2021.

She has been part of the Hurst team for the past 12 years and has been a

teacher for 13 overall.

“I started off in a path toward psychology, and that didn’t work out. I changed course toward education and once I got into that, I knew that’s where I was supposed to be,” she said. “I fell in love with it. I love everything about being a teacher ... working with my students and with my fellow faculty members.”

One moment following the presentation saw Waguespack call her parents to let them know the news.

“That was amazing ... my parents are probably my biggest support system – they support me in everything. I know they were proud,” Waguespack said. “My mom was crying on the phone.”

Milken beamed as he spoke about her, and about the cause as a whole.

“I’ve been doing this for 38 years,” said Milken, a philanthopist and who founded the Milken Educator Awards. In 1987. “Every one of these occasions is so special, because you’re always meeting

different outstanding individuals.”

Milken said that his organization works with state departments of education across the country to form a list of potential nominees, and his foundation makes the decisions from there as to who will be honored.

He said, more than ever, there is a need today to recognize and appreciate educators and that while a lot of attention goes toward recruitment, those already in the field need to be appreciated, recognized and rewarded as well.

“We need to attract talented people in the teaching profession, but the talented people already in the profession, we need to retain and motivate,” he said.

Waguespack’s moment was made all the more memorable by a very lively and spirited crowd of Hurst students.

“That was incredible. (Waguespack) was a rock star today. (The Hurst atmosphere) was as good as they come,” Milken said.

Reason for Change Order:

1. Deleted Work Items

- a. Base Course was not needed. All asphalt patching depths were deep enough to account for base failures; therefore, the Base Course item was no longer needed.
- b. There was no need for relocation of infrastructure items.
- c. There was no need to adjust catch basins or other drainage structures.
- d. RAP shoulder material was used everywhere. The stone and earthen shoulder materials were not needed.

- e. Sodding was not used. Shoulders were dressed with RAP.
2. Revise Work Item Quantities.
- a. There was a slight increase in Cold Planning and Asphalt Pavement Overlay.
- b. There was a decrease in the Asphalt Patching. Generally, there was less patching overall than expected when making the contract quantities.
- c. There were less Manhole and Water Valve Adjustments than was anticipated in the contract quantities.
- d. Since none of the other types of Shoulder Materials were used throughout the contract, the total quantity for Shoulder Material (Reclaimed Asphalt Pavement) increased.
- e. There were less ReflectORIZED Raised Pavement Markers (Blue) than originally anticipated in the contract quantities.
- f. There were less quantity Plastic Reflective Pavement Striping (4" Width) than originally anticipated.
- g. The increase in Plastic Reflective Pavement Striping (24" Width) was caused by two crosswalks that were missed in the contract quantities.
- h. Work was completed 16 days prior to the total contract time of 135 days allotted by the last change order.

4.01 Owner and Contractor recognize that the Owner will suffer direct financial loss if Work is not completed within the Contract Time specified plus any extensions thereof allowed in accordance with these General Conditions of this Contract, and therefore, time is of the essence. They also recognize the delays, expense and difficulties involved in proving in a legal proceeding the actual loss suffered by Owner if the Work is not completed on time. Accordingly, instead of requiring any such proof, Contractor and Surety agree to forfeit and pay Owner Seven Hundred and Fifty dollars \$750 per day as Liquidated Damages for delay (but not as a penalty). Such Liquidated Damages will be assessed for each calendar day that expires after the Contract Time. This amount represents a reasonable estimate of Owner's expenses for extended delays and the costs associated therein. This provision shall be effective between the parties ipso facto and without demand or putting in default, it being specifically agreed that the Contractor by his mere failure to complete the work on or before the date specified shall be deemed in default.

ARTICLE 5

CONTRACT PRICE

5.01 The Owner will pay and the Contractor will accept in full consideration for the performance of the Contract the sum of:

a) (\$ 3,185,675.00) Three Million One Hundred Eighty-Five Thousand Six Hundred Seventy-Five and 00/100 Dollars based on unit prices specified within this contract document. Contract price is firm and subject only to modification by written Change Order agreed to and signed by both parties and the Engineer and approved by the St. Charles Parish Council.

ARTICLE 6

PAYMENT PROCEDURES

6.01 Contractor shall submit Applications for Payment to the Engineer in accordance with Article 15 of the General Conditions. Applications for Payment will be processed by Engineer as provided in the General Conditions.

6.02 Progress Payments. Progress payments will be based upon estimated quantities of contract unit price items or upon estimated percentages of completion of the schedule of lump sum values of labor and materials incorporated into the Work or suitably stored, on the last day of each month or other mutually agreed regular monthly date ending the progress payment period, less retainage.

6.03 Application for Payment Form. The form of the Application for Payment must be suitable to the Owner. The Owner reserves the right to withhold payment until the form of Application for Payment is deemed acceptable by the Owner.

6.04 Retainage. Per Paragraph 15.01.D retainage shall be withheld and payments will be made by the Owner in the payment amount of:

- a) Ninety percent (90%) of the approved payment applications for projects with contract of less than \$500,000.00; or
- b) Ninety-five percent (95%) of the approved payment applications for projects with contract prices of \$500,000.01 or greater.

6.05 The normal retainage shall not be due the Contractor until after Substantial Completion and expiration of the forty-five (45) day lien period and submission to the Engineer of a clear lien certificate and invoice for retainage.

6.06 Final Payment. Upon the final completion of all Work, the Contractor may request a final inspection and may make a final Application for Payment as provided by Paragraph 15.06 of the General Conditions.

6.07 Final Acceptance. When Final Acceptance is granted by the Owner, the Owner shall file the certificate with the Recorder of Mortgages for St. Charles Parish.

6.08 At the expiration of the lien period the Contractor shall obtain a certificate from the Recorder of Mortgages of the Parish of St. Charles that the Contract is clear of any liens or privileges, and said certificate shall be presented to the Owner for final payment and release of retainage, less any such sums as may be lawfully withheld under the Contract.

6.09 Claims. Pursuant to La. R.S. 38:2242, when the Owner receives any claim of nonpayment arising out of the Contract, the Owner shall deduct such claim from the Contract Sum. The Contractor, or any interested party, may deposit security, in accordance with La. R.S. 38:2242.2, guaranteeing payment of the claim with the Recorder of Mortgages for St. Charles Parish. When the Owner receives original proof of such guarantee from the Recorder of Mortgages, the claim deduction will be added back to the Contract Sum.

ARTICLE 7

CONTRACTOR'S REPRESENTATIONS

7.01 In order to induce Owner to enter into this Agreement, Contractor makes the following representations:

7.02 Contractor has familiarized itself with the nature and extent of the Contract Documents, Work, site, locality, and all local conditions and laws and regulations that in any manner may affect cost, progress, performance or finishing of the Work.

7.03 Contractor has studied carefully all reports of explorations and tests of subsurface physical conditions and drawings of physical conditions which are identified in the Information Available To Bidders and as provided in the General Conditions.

7.04 Contractor has obtained and carefully studied (or assumed responsibility for obtaining and carefully studying) all such examinations, investigations, explorations, tests, reports and studies (in addition to or to supplement those referred to in Paragraph 2 above) which pertain to the subsurface or physical conditions at or contiguous to the site or which otherwise may affect the cost, progress, performance or furnishing of the Work as Contractor considers necessary for the performance or furnishing of the Work at the Contract Price, within the Contract Time and in accordance with the other terms and conditions of the Contract Documents. In exercising its responsibility with respect to subsurface conditions and physical conditions at the site, Contractor has or will obtain or perform at no additional cost to the Owner such additional examinations, investigations, explorations, tests, reports, studies, or similar information or data as may be required by Contractor for such purposes.

ARTICLE 8

- Deleted Work Items
 - Not Applicable (N/A)
- Add Work Items
 - In order to complete the Contract work as required in the Construction Documents at the Shell and Enterprise pipeline corridor, the Contractor, Cycle Construction, LLC, erected a Temporary Retaining Structure (TRS) behind the existing sheet pile bulkhead on the west side of the Dunleith Canal, so that the pipelines could be exposed and the required Contract work performed in the excavation. This work was included in the Construction Bid and was performed at no additional cost. However, the existing west side sheet pile bulkhead did not provide cutoff for seepage from the Dunleith Canal, and the TRS excavation filled with Canal water until the water in the excavation equalized with the water level within the Dunleith Canal itself, approximately 5 feet deep. This prevented the Contract work from being able to proceed at this location, which required dry conditions for the work around the pipelines. After attempts to dewater the TRS failed, Cycle Construction requested and received permission to vary the Contract Documents by constructing a cofferdam within the Dunleith Canal and dewatering that portion of the Canal in order to create dry conditions for construction to proceed. The cost and time associated with this work included extended field office overhead during the delay period, the actual costs of furnishing, driving, and ultimately removing the steel sheets for the cofferdam, and the actual costs of furnishing pumps and plugs for dewatering the Canal. The delay time extended from the initial instance of the TRS filling with water (9/12/2023) until the construction of the cofferdam was completed and contract work could continue to proceed (10/30/2023): 49 calendar days in total.
 - In conjunction with the installation of the cofferdam as described above, the anticipated severe weather and intense rainfall expected in early December 2023 prompted the Owner to direct partial removal/extraction of cofferdam steel sheet piling and re-watering of the area in order to facilitate drainage flow within the Canal. Following the rain event, the cofferdam was re-constructed and dewatered again. The cost and time associated with this work included extended field office overhead during the delay period and the actual costs of extracting and re-driving the steel sheets for the cofferdam. The delay time extended from the beginning of cofferdam

extraction (12/1/2023) until the re-construction of the cofferdam was completed and dewatered and contract work could continue to proceed (12/27/2023): 27 calendar days in total.

This Construction Manager at Risk (CMAR) Pre-Construction Services Agreement, (hereby after

the Agreement or Contract), made and entered into in multiple counterparts, effective on the last

date executed by a party hereto, by and between:

ST. CHARLES PARISH

("SCP")

and

CAJUN INDUSTRIES, LLC

("CMAR")

(each a "Party" or collectively the "Parties") for Pre-Construction Services in connection with the following Project:

Project name: **Engineers Canal Pump
Station Improvements**
Project No: **P220206**
("Project")

the Construction Documents for which have been or will be prepared by Volkert, Inc. ("Design Professional" or "DP").

In consideration for the mutual covenants and obligations contained herein, SCP and CMAR agree as set forth herein.

Article 1 Scope of Work

1.1 CMAR shall perform all needed services in the Pre-Construction Services Phase of the Project, and provide all materials, equipment, tools, and labor necessary to satisfactorily complete all work, deliverables and services described in and reasonably inferable from the Contract Documents (collectively "Scope of Work", "Project Work" or "the Work"). The Parties agree that this Agreement shall not be effective as a contract for Construction Phase services until such time as the Parties execute a Construction Services Agreement if they agree upon a Guaranteed Maximum Price (GMP), Contract Time, and Construction Phase Fee. Execution of this Pre-Construction Services Agreement is in no way an indication or commitment that the Construction Services contract will be executed with CMAR or any third party and does not imply any obligation on the part of St. Charles Parish to do so. Any reference to Construction-Phase Services in this Agreement is for informational purposes and is not indicative that CMAR will be awarded the Construction Services Agreement. Any reliance by CMAR on this Pre-Construction Services Agreement is indicative that a Construction Services contract will be executed at CMAR's own risk. St. Charles Parish will not be liable for such reliance or for any costs associated therewith.

1.2 Sub-phasing of Construction Phase. During the Pre-Construction Services Phase, CMAR shall provide recommendations regarding accelerated or fast-track scheduling, procurement, or phased construction. CMAR shall consider cost reductions, cost information, constructability, provisions for temporary facilities, and procurement and construction scheduling issues. If SCP elects to construct the Project in phases, SCP will give written notice to CMAR, requesting a phased GMP. The GMP for the Phase Scope of Work will be incorporated into the Agreement according to Section 2.1.10 of the "Exhibit A - CMAR General Conditions".

1.3 CMAR shall provide services for the Pre-Construction Services Phase in accordance with this Agreement and “Exhibit A – CMAR General Conditions”.

During the Pre-Construction Services Phase, CMAR shall prepare itemized cost estimates in accordance with Section 2.1.9 of “Exhibit A – CMAR General Conditions” and provide a GMP, using the format set forth in “Exhibit C – Cost of the Work – Schedule of Values” (template), which excludes the Pre-Construction Services Phase Fee, for SCP’s review and approval for all the Work required to complete the Project.

If the GMP proposed by CMAR is acceptable to SCP, the Parties shall execute a separate Construction Services Agreement, of a Construction Contract and Construction Contract General Conditions, to establish the GMP and Construction Phase Fee, and to incorporate into the Agreement the Construction Documents.

If the GMP proposed by CMAR is not acceptable to SCP, SCP may terminate the Agreement or act as otherwise provided for in the “Exhibit A – CMAR General Conditions.”

Article 2 Contract Documents

2.1 The “Contract Documents” are comprised of the following. In the event of a conflict in the Contract Documents, the Contract Documents will be applied in the following order of precedence:

- 2.1.1 This Agreement without Exhibits and any amendments or change orders thereto.
- 2.1.2 Exhibit A– CMAR General Conditions
- 2.1.3 Exhibit B – Project Program
- 2.1.4 Exhibit C – Cost of the Work – Schedule of Values (template)
- 2.1.5 The following other documents, if any, forming part of the Agreement:
 - Unit Price Schedules
 - CMAR’s Allowances
 - All applicable permits
- 2.1.6 Any other items stipulated by the Parties as included in the Contract Documents, including supplements and addenda to the documents identified herein.

Article 3 Interpretation and Intent

- 3.1 The Contract Documents are complementary and must be interpreted in harmony to avoid conflict or ambiguity, with words and phrases interpreted consistent with construction and design industry standards.
- 3.2 Terms, words, and phrases used in the Contract Documents shall have the meanings as defined in the “Exhibit A – CMAR General Conditions” or this Agreement, and if not specifically defined, their ordinary and common meaning.
- 3.3 The Contract Documents form the entire Agreement between SCP and CMAR and by incorporation herein are as fully binding on the Parties as if set forth herein. No oral representations or other agreements have been made by the Parties except as specifically stated in the Contract Documents.

Article 4 Ownership of Documents

- 4.1 SCP, through its separate agreement with the Design Professional, has and shall continue to have ownership of all drawings, specifications, and other documents and electronic data furnished by Design Professional.
- 4.2 SCP shall also have ownership of documents or electronic data like those described in Article 4.1 above created by or in the possession of CMAR as well as any estimates, schedules, value engineering submissions, or other work product or deliverable furnished by CMAR to SCP.

Article 5 Contract Time

- 5.1 SCP and CMAR mutually agree that time is of the essence with respect to the dates and times set forth in the Contract Documents. CMAR understands that the time(s) for completion(s) set forth in these documents are essential to SCP and a material consideration for this Agreement.
- 5.2 For the Pre-Construction Services Phase, the Work and Contract Time shall commence within ten (10) days of execution of this Agreement, unless the Parties mutually agree otherwise in writing. For the Construction Phase Services, if that contract is awarded to CMAR, the Work shall commence onsite within ten (10) days of the date set in SCP’s Notice-to-Proceed (NTP) to CMAR unless the Parties mutually agree otherwise in writing. Contract Time shall start on the date as set in the NTP.

5.3 Substantial Completion

- 5.3.1 Substantial Completion of the Work shall be achieved as mutually agreed upon.
- 5.3.2 Interim milestones and/or Substantial Completion of identified portions or phases of the Work shall be achieved as described in Section 7.8 of Exhibit A – CMAR General Conditions once agreed upon by SCP, CMAR and DP, subject to adjustments in accordance with the Contract Documents.

5.4 Final Completion

- 5.4.1 Final Completion of the Work shall be achieved within an agreed upon number of calendar days after the date established for Substantial Completion of the Work, unless otherwise mutually agreed by amendment or change order.
- 5.4.2 Interim milestones and/or Final Completion of identified portions or phases of the Work shall be achieved as described in Section 7.9 of Exhibit A – CMAR General Conditions, subject to adjustments in accordance with the Contract Documents.

Ascertained and Liquidated Damages. CMAR understands and acknowledges that if Substantial Completion is not achieved by the Substantial Completion Date provided in Article 5.3.1, and Article 5.3.2 above or as later established for identified portions or phases of the Work, SCP will suffer damages, which are difficult to accurately quantify and ascertain. CMAR agrees that, without the necessity or formality of putting CMAR in default therefore, if Substantial Completion for each portion or phase of the Work is not timely achieved, CMAR shall pay SCP One Thousand dollars (\$1,000.00) per day as ascertained and liquidated damages, and not as a penalty, for each calendar day that Substantial Completion for each portion or phase extends beyond the Substantial Completion Date(s). In addition, if Final Completion is not attained within the period defined by Article 5.4 above, CMAR shall pay SCP One Thousand dollars (\$1,000.00) per day as additional ascertained and liquidated damages, and not as a penalty, for each calendar day that Final Completion extends beyond the required date. The liquidated damages provided for herein shall be in lieu of all liability for all extra costs, losses, expenses, claims, penalties, and any other damages, whether special or consequential, and of whatsoever nature incurred by SCP which are occasioned by any delay in CMAR achieving Substantial Completion or Final Completion on or after the established dates.

Notwithstanding anything stated herein, the above-stated ascertained and liquidated damages shall in no way limit SCP’s other rights (e.g., “recovery measures” or termination) or limit SCP’s entitlement to damages for any breach other than for delay for which CMAR may be responsible pursuant to the terms of this Agreement or applicable law. If for any reason ascertained and liquidated damages as set forth in this section are unenforceable, SCP shall be entitled to recover its actual damages sustained because of any delay in the completion of this Project.

Article 6 Pre-Construction Services Phase Fee and Guaranteed Maximum Price

6.1 SCP shall pay CMAR a Pre-Construction Services Phase Fee for the Pre-Construction Services and, if the Agreement is amended to include Construction Phase Services, a Construction Phase Fee for Construction Phase Services as provided in the Contract Documents. CMAR’s Construction Phase Fee, plus the Cost of the Work, Contingencies and Allowances, each as defined in “Exhibit A – CMAR General Conditions”, will comprise the GMP to be established in compliance with “Exhibit A – CMAR General Conditions”. Unless otherwise agreed to, CMAR’s GMP is deemed to include all required taxes (including sales and use taxes), as well as all applicable bond and insurance costs.

- 6.1.1 The Pre-Construction Services Phase Fee, as defined in Section 1.2 of the “Exhibit A – CMAR General Conditions”, shall be a not to exceed amount of fifty thousand dollars (\$50,000.00).
- 6.1.2 Section 1.2.29 of Exhibit A – CMAR General Conditions describes “Pre-Construction Services” to also include services listed in the Project Program. These services may include, but are not limited to:
 - Clearing and Demolition
 - Drainage Excavation and dewatering
 - Additional topographic, or subsurface utility surveys or field investigation (potholing) prior to construction
 - Utility abandonment and/or relocation

6.1.3 Additional services not previously listed in the Project Program may include purchasing of long lead time items such as mechanical bar screen cleaners, vertical turbine drainage pumps, steel sheet piles, and other items that would normally delay the initiation of a construction project because of material procurement.

6.1.4 The fee for said potential additional services as listed in 6.1.2 and 6.1.3 above, shall be limited to a not to exceed fee of \$2,500,000.00, issued via Task Order on an as needed basis, upon mutual agreement between SCP, DP and CMAR of scope and fee for each individual task.

6.1.5 The Construction Phase Fee, as defined in Section 1.2 of the “Exhibit A – CMAR General Conditions”, shall be a fixed fee.

6.2 If the GMP requires an adjustment due to changes in the Scope of Work during the Construction Phase, the cost of such changes shall be determined in accordance with Section 10 of the “Exhibit A – CMAR General Conditions”.

6.3 For SCP-caused construction delays, either agreed to or awarded, CMAR will provide all the necessary extended Construction General Conditions for a daily sum as provided for in Sections 9.7 and 10.4 of the “Exhibit A – CMAR General Conditions”. The specific amount of extended Construction General Conditions will be determined by the SCP on a case-by-case basis prior to issuance of a change order and must be determined to be fair and reasonable to the satisfaction of SCP and the Construction Management Professional.

Article 7 Procedure for Payment

7.1 **Progress Payments.** CMAR shall submit to SCP a monthly CMAR’s Application for Payment.
