Mr. Fuselier stated he had a great story from our emergency department over the past couple weeks. A patient who came in, frequently known to us, but was having some difficulty getting some outpatient services. Our team really helped correlate with our case management department to get those services assigned to him at home. They went on about their day, didn't think of it as any different. A few days later, they actually received a phone call from the patient to where he left a voicemail for the leader expressing his thankfulness and saying how kind everyone was to him during his visit. It was really nice to get that reassuring phone call from a patient, when our staff doesn't see it as going above and beyond, but it really is and has such an impact on our patients.
